Temperature and Humidity Solutions

DeltaTrak's temperature and humidity solutions are designed fit various requirements for monitoring ambient air conditions in storage areas, laboratories, processing and shipping applications, as well as greenhouses, hatcheries, and live animal production. Models with external temperature probes provide the option to measure the internal temperature of products or specific locations.

FlashLink. USB Reusable Temperature and Humidity Data Loggers

Model 20248

- Dual channel, internal temperature & humidity sensors
- Ideal for monitoring ambient temperature and humidity
- User programmable: manual or auto start, logging intervals, high/low alarms
- Large easy-to-read LCD
- Multi-language FlashPDF Program Manager software
- Summary analysis of data, with alarm information
- Degree Minutes and MKT calculations

Pocket Type Thermo-Hygrometer

Model 13308

- Internal temperature and humidity sensors
- Dual display for humidity & temperature
- Maximum & minimum reading memory
- °C / °F selectable
- Fast reading update
- Large and clear display
- Pen shape design with a pocket clip attached to back side

Jumbo Display Wall Mounted Thermo-Hygrometer

Model 13309

- Serial number and calibration certificate traceable to NIST standards
- Internal temperature and humidity sensors
- External temperature probe
- Probe holder with self-adhesive backing
- °C/°F selectable
- Jumbo display for temperature, humidity, time and date
- Min/Max memory - lowest and highest readings stored for instant recall
- Alarm clock and hourly chime
